

Working with Connection

When defining a new import source, you must name the data transfer and specify an existing authentication to use.

Edit Source

amplitude_20180906_200835

1 Connection	Data Transfer Name: <input type="text" value="amplitude_20180906_200835"/>
2 Source Table	Authentication: <input type="text" value="amp_connection_1_23_18"/>
