

Cloud Storage and File Storage

Storage Platform	Function	Description	Learn More
Adobe Analytics	Import	Import files from Adobe Analytics SFTP Server	Adobe Analytics Import Integration
Amazon S3	Import	Import JSON, TSV, and CSV files that reside in an S3 bucket into Treasure Data.	Amazon S3 Import Integration
Amazon S3	Export	Export Treasure Data job results directly to Amazon S3.	Amazon S3 Export Integration
Box	Import	Import files on Box into Treasure Data.	Box Import Integration
Box	Export	Export Treasure Data job results directly to Box.	Box Export Integration
Dropbox	Export	Export Treasure Data Job results directly to Dropbox.	Dropbox Export Integration
Gigya Import Integration	Import	Import data of Accounts, Profile Management and Data Store from Gigya (SAP Customer Data Cloud)	Gigya Import Integration
Google Cloud Storage	Import	Import CVS and TSV files into Treasure Data.	Google Cloud Storage Import Integration
Google Cloud Storage	Export	Export Treasure Data job results in Google Cloud Storage.	Google Cloud Storage Export Integration
Google Drive	Import	Import CVS, TSV files, and GZIP of CVS and TSV files into Treasure Data.	Google Drive Import Integration
Google DoubleClick Data	Import	SFTP import status the platform's SFTP server into Treasure Data.	Google Audience Partner API Status via SFTP Import Integration
KARTE	Import	Import CSV and TSV files into Treasure Data.	KARTE Import Integration
KARTE	Export	Export job results to an SFTP server.	KARTE Export Integration
Microsoft Azure Blob Storage	Import	Import CSV and TSV files into Treasure Data.	Microsoft Azure Blob Storage Import Integration
Microsoft Azure Blob Storage	Export	Export job results to Microsoft Azure Blob Storage.	Microsoft Azure Blob Storage Export Integration
Riak CS	Import	Import CSV and TSV files into Treasure Data.	Riak CS Import Connector
SFTP Server	Import	Import files into Treasure Data.	SFTP Server Import Integration
SFTP Server	Export		SFTP Server Export Integration
FTP Server	Import	Import files into Treasure Data.	FTP Server Import Integration
FTP Server	Export	Export job results to FTP server with FTPS(implicit) or FTPES (explicit).	FTP Server Export Integration
Web Server and HTTP PUT Endpoint	Export	Export job results to a web server or HTTP API that accepts PUT requests.	Web Server and HTTP PUT Endpoint Export Integration
