

Sites and Endpoints

Treasure Data provides sites for access to the platform and endpoints for access to specific components in a site.

- [Sites](#)
- [Endpoints](#)
 - [Europe Endpoints](#)
 - [Korea Endpoints](#)
 - [US Endpoints](#)
 - [Tokyo Endpoints](#)

Sites

Treasure Data service is offered from multiple sites. Each site (previously referred to as region) provides a home for data and is assigned at the Treasure Data account owner level.

Large organizations might operate in multiple Treasure Data sites but each site is independent, maintaining its own user accounts and databases. Data cannot be copied directly between sites.

The site you are assigned is based on:

- The physical location of users
- Compliance with data residency requirements associated with applicable data privacy laws, such as Europe's General Data Protection Regulation (GDPR)
- Performance

Sites are US, Japan, Europe, and Korea. For Europe, all data physically resides in Germany, to comply with both GDPR and the German Privacy Act (Bundesdatenschutzgesetz).

Treasure Data's service is primarily API-based. TD offers multiple clients in various languages to access the APIs.

Endpoints

You use endpoints corresponding to your site to access the Treasure Data platform.

Europe Endpoints

Site	Endpoint
Console with Audience Studio (Legacy)	console.eu01.treasuredata.com
Console with Audience Studio	console-next.eu01.treasuredata.com
API	api.eu01.treasuredata.com
Stream Import	api-import.eu01.treasuredata.com
JS/Mobile SDK/Postback	eu01.in.treasuredata.com
Workflow	api-workflow.eu01.treasuredata.com
Presto JDBC/ODBC	api-presto.eu01.treasuredata.com
Profiles API	cdp-eu01.in.treasuredata.com
CDP API	api-cdp.eu01.treasuredata.com

Korea Endpoints

Site	Endpoint
Console with Audience Studio (Legacy)	console.ap02.treasuredata.com
Console with Audience Studio	console-next.ap02.treasuredata.com
API	api.ap02.treasuredata.com
Stream Import	api-import.ap02.treasuredata.com

JS/Mobile SDK/Postback	ap02.in.treasuredata.com
Workflow	api-workflow.ap02.treasuredata.com
Presto JDBC/ODBC	api-presto.ap02.treasuredata.com
Profiles API	cdp-ap02.in.treasuredata.com
CDP API	api-cdp.ap02.treasuredata.com

US Endpoints

Site	Endpoint
Console with Audience Studio (Legacy)	console.treasuredata.com
Console with Audience Studio	console-next.treasuredata.com
API	api.treasuredata.com
Stream Import	api-import.treasuredata.com
JS/Mobile SDK/Postback	in.treasuredata.com
Workflow	api-workflow.treasuredata.com
Presto JDBC/ODBC	api-presto.treasuredata.com
Profiles API	cdp.in.treasuredata.com
CDP API	api-cdp.treasuredata.com

Tokyo Endpoints

Site	Endpoint
Console with Audience Studio (Legacy)	console.treasuredata.co.jp
Console with Audience Studio	console-next.treasuredata.co.jp
API	api.treasuredata.co.jp
Stream Import	api-import.treasuredata.co.jp
JS/Mobile SDK/Postback	tokyo.in.treasuredata.com
Workflow	api-workflow.treasuredata.co.jp
Presto JDBC/ODBC	api-presto.treasuredata.co.jp
Profiles API	cdp-tokyo.in.treasuredata.com
CDP API	api-cdp.treasuredata.co.jp
